# 4-7-8 Breathing

# 4-7-8 Breathing

1. Pretend there is a balloon in your belly! Take a long, deep breath in through your nose for 4 seconds, and fill up the balloon with your breath.

2. Gently hold your breath for 7 seconds.

3. Breathe out for a count of 8 seconds. Pretend that this is the air escaping through a tiny hole in the balloon.

4. Relax your body, and then repeat 3 more times.

Breathe easily. If it's hard for you to breathe for the full length of time, that's okay! Try breathing for a count of 3-5-6 instead. With practice, it'll become easier.
